# Master Curriculum - Saving Grade Book Assignments to Create

You can add assignments to your grade book throughout a semester or year and then save those assignments as a master curriculum in a few easy steps.

- Only curriculum that you OWN can be altered. Make sure you've designated the curriculum as yours to allow for future copying.
  - a. When you choose a curriculum for a class, if you are not the owner, you must rename it.
  - Rename it with something that signifies who you are and when you created it. An example might be **"3 - Mathematics (jdoe 16/17)"**
