Accessing Student Portal Administration

Please remember these important facts when working in the SIS.

The SIS currently enables two menu styles, Classic and Modern. These Manuals are constructed with the Modern Menu in mind. If using Classic, the locations of certain procedures may vary.

Always use secure methods of password retrieval and when distributing them to SIS users.

I. Set Password Policies

- Step 1. **Administration» Settings» Policies**
- Step 2. Choose the 'security' group
- Step 3. Policy number 7 allows you to decide if you want to require **Strong** security or medium security passwords

Policy Number	Policy Name	Policy Description	Default Value	Options
1.	Student LOGIN ACCOUNT creation format. (Page: studentloginformat) (studentloginformat)	What format do you want to use to create student logins? See Admin > Settings > Security > Customizing Default Logins. (Default: [firstname] [id])	[schoolmail]	
2.	Student DEFAULT PASSWORD format. (Page: studentpwformat) (studentpwformat)	What format do you want to use to create student logins? See Admin > Settings > Security > Customizing Default Logins. (Default: [randomstring])	[upperlastname][loweri]	
3.	Should students be REQUIRED to CHANGE their PASSWORD the first time they log in? (Page: studentchangePW) (studentchangePW)	It is a good idea to have the student change their password when they first log in. Require this? (Default: yes)	Yes	<input type="radio"/> No <input checked="" type="radio"/> Yes
4.	Do you want users to ONLY see the LINKS they have ACCESS to? (Page: menuhidesdisallowed) (menuhidesdisallowed)	By default, the menu shows all links possible in the system. Changing this policy to true means that only links you have permission to will be displayed.	Yes	<input type="radio"/> No <input checked="" type="radio"/> Yes
5.	Store staff passwords encrypted? (encryptstaffpasswords)	Passwords can be kept in plain text in our database or in an encrypted form. Keeping passwords in encrypted form is recommended as it provides protection even if there is a system compromise. However, this makes it impossible to send passwords to 3rd party systems.	No	<input checked="" type="radio"/> No <input type="radio"/> Yes
6.	Should students be able to use their SSID, LOCALID, OR LEGACYID for a USERNAME and their TEACHER'S LAST NAME for a PASSWORD, instead of a more secure, but more difficult option? (Page: insecurepubliclogin) (insecurepubliclogin)	By default, public login for the student portal is done securely with a username and password for each student. If enabled, students will log in using the less secure model of their student number (SSID, Local ID, or Legacy ID) for a username, and teacher's lastname for a password.	No	<input checked="" type="radio"/> No <input type="radio"/> Yes
7.	Let students use PASSWORDS of MEDIUM STRENGTH INSTEAD OF requiring COMPLEX, STRONG PASSWORDS? (Page: allowmediumpw) (allowmediumpw)			

- Step 4. Secure passwords include those that have the following:
 - 8 characters long
 - Have at least one capital letter
 - Have at least one lowercase letter
 - Have at least one number
 - Have at least one symbol (*&^%\$! etc.)

Set the policy and save

II. Administration View of Student Passwords

- Step 1. Admin» Settings» Security » Security
- Step 2. Choose Define Users

- Step 3. Choose the appropriate settings needed

A screenshot of the 'Define Users in milestone' page. The page has a blue header with navigation links: Admin, Reports, 'Academies', Teachers, Portal, and Help. Below the header, the page title 'Define Users in milestone' is displayed. The main content area contains two sections: 'Show User Accounts of Type?' and 'Filter Accounts by Search?'. The 'Show User Accounts of Type?' section has five checkboxes: 'Staff Accounts', 'Pubhouseholds Accounts', 'Parents Accounts', 'Students Accounts' (checked), and 'Unlinked Accounts'. The 'Filter Accounts by Search?' section has a text input field labeled 'Login Name or User Name'. Below these sections, there is an 'Account Options?' section with four radio buttons: 'Only Active Accounts' (selected), 'Only Disabled Accounts', 'Both Active & Disabled Accounts', 'Only Human Accounts' (selected), 'Only Non-Human Accounts', and 'Both Human & Non-Human Accounts'. At the bottom left, there is an 'Update' button.

- Step 4. This will generate a list of students to view. Click Set Details to change password, username or account expiration
