| Home | Admin | 'Academies' | Teachers | CMS / PLS | Parents - Students | Help | |

| School Security <input type="checkbox"/> Show <input checked="" type="checkbox"/> Show | | | | | | | |
| 1. | 1. Student LOGIN ACCOUNT creation format. (Page: studentloginformat) (studentloginformat) What format do you want to use to create student logins? See Admin > Settings > Security > Customizing Default Logins. (Default: [firstname][id]) | | | | | All | <input type="text" value="[schoolemail]"/> |
| 2. | 2. Student DEFAULT PASSWORD format. (Page: studentpwformat) (studentpwformat) What format do you want to use to create student logins? See Admin > Settings > Security > Customizing Default Logins. (Default: [randomstring]) | | | | | All | <input type="text" value="[upperlastname][loweri]"/> |
| 3. | 3. Should students be REQUIRED to CHANGE their PASSWORD the first time they log in? (Page: studentchangePW) (studentchangePW) It is a good idea to have the student change their password when they first log in. Require this? (Default: yes) | | | | | All | <input type="radio"/> No <input checked="" type="radio"/> Yes |
| 4. | 4. Do you want users to ONLY see the LINKS they have ACCESS to? (Page: menuhidesdisallowed) (menuhidesdisallowed) By default, the menu shows all links possible in the system. Changing this policy to true means that only links you have permission to will be displayed. | | | | | All | <input type="radio"/> No <input checked="" type="radio"/> Yes |
| 5. | 5. Store staff passwords encrypted? (encryptstaffpasswords) Passwords can be kept in plain text in our database or in an encrypted form. Keeping passwords in encrypted form is recommended as it provides protection even if there is a system compromise. However, this makes it impossible to send passwords to 3rd party systems. | | | | | All | <input checked="" type="radio"/> No <input type="radio"/> Yes |
| 6. | 6. Should students be able to use their SSID, LOCALID, OR LEGACYID for a USERNAME and their TEACHER'S LAST NAME for a PASSWORD, instead of a more secure, but more difficult option? (Page: insecurepubliclogin) (insecurepubliclogin) By default, public login for the student portal is done securely with a username and password for each student. If enabled, students will log in using the less secure model of their student number (SSID, Local ID, or Legacy ID) for a username, and teacher's lastname for a password. | | | | | All | <input checked="" type="radio"/> No <input type="radio"/> Yes |
| 7. | 7. Let students use PASSWORDS of MEDIUM STRENGTH INSTEAD OF requiring COMPLEX, STRONG PASSWORDS? (Page: allowedmediumpw) (allowedmediumpw) | | | | | All | |

- Step 4. Secure passwords include those that have the following:
 - 8 characters long
 - Have at least one capital letter
 - Have at least one lowercase letter
 - Have at least one number
 - Have at least one symbol (*&^%\$! etc.)

Set the policy and save
