

Test Registration System- Admin CAASPP

Please remember these important facts when working in the SIS.

The SIS currently enables two menu styles, Classic and Modern. These Manuals are constructed with the Modern Menu in mind. If using Classic, the locations of certain procedures may vary.

The Test Registration System allows you to organize your testing locations/events, students taking tests, site coordinators and proctors managing tests. There are also options for mass registration of students utilizing the compliance report. In addition, the questions to ask, test locations, and events can be set up at district level and then copied to the individual Child Scopes.

*Please note that the previous registration system is still active for schools that have already started the registration process. Located under "STAR (old system)"

Opening Letter (to staff)

For the 2014-2015 School Year, CAASPP will be administered to grades 3rd-8th, 11th for ELA and Math. In addition, students in the 5th, 8th and 10th grade will take the Science CST. Tests will all be ordered using TOMS via ETS. Teachers are just being asked to indicate which test site their student will use.
