

PreEnrollment of Students

Please remember these important facts when working in the SIS.

The SIS currently enables two menu styles, Classic and Modern. These Manuals are constructed with the Modern Menu in mind. If using Classic, the locations of certain procedures may vary.

You can now set a Pre-Enrollment date for students in SpSIS so teachers can pick up the student in ReportWriter before they are actually enrolled for attendance

- Step 1. Create program in Admin»Settings»Program Options
See [this page](#) to review more information on creating programs
- Step 2. Any Student that is currently on the intake roster can be enrolled in this new Pre-Enroll program. To get to the Intake Roster:
- Step 3. Go to Admin»Student Info»Intake Roster...OR you can directly enroll a new student and give them an enrollment date in this new program.
- Step 4. Create a new enrollment record

Teachers in Report Writer

1. In ReportWriter choose FILE> Import Student to select student

2. When the student's actual enrollment date is set to SpSIS and the teacher completes a synch, this will change the enrollment date in ReportWriter and the teacher can make adjustments to the learning period dates at this time.
