PreEnrollment of Students

You can now set a Pre-Enrollment date for students in SpSIS so teachers can pick up the student in ReportWriter before they are actually enrolled for attendance

- Step 1. Create program in Admin»Settings»Program Options
See [this page](#) to review more information on creating programs
- Step 2. Any Student that is currently on the intake roster can be enrolled in this new Pre-Enroll program. To get to the Intake Roster:
- Step 3. Go to Admin»Student Info»Intake Roster...OR you can directly enroll a new student and give them an enrollment date in this new program.
- Step 4. Create a new enrollment record

- Set enrollment start date
- Choose the learning center
- Choose the track
- Choose the Program- PreEnroll
- Choose the Graduation Requirement
- Choose the gradelevel
- SAVE RECORD
- Step 5. Set the Staff Record by choosing IS Staff Assoc Tab

- Add New Assignment
- Enter PreEnroll Date
- SAVE Record

Teachers in Report Writer

1. In ReportWriter choose FILE> Import Student to select student
2. When the student's actual enrollment date is set to SpSIS and the teacher completes a synch, this will change the enrollment date in ReportWriter and the teacher can make adjustments to the learning period dates at this time.
