

Transcript Settings

Please remember these important facts when working in the SIS.

The SIS currently enables two menu styles, Classic and Modern. These Manuals are constructed with the Modern Menu in mind. If using Classic, the locations of certain procedures may vary.

There may have been changes to the Transcripts Settings that will give each school the ability to set up transcripts to match the school's needs. Transcripts settings affect everything from credit requirements, grade weights, course modifiers and GPA types to how grades can be posted in ReportWriter and Learning Centers.

Basic Setup

- Step 1. To Set transcript information go to Admin»Settings»Transcripts/Report Cards Set Transcripts Credit Requirements
Click 'Add a new school type'
- Step 2. Name your school type, choose the grade levels, report card template, and select if you want to calculate credits for this type. **SAVE**.

The screenshot shows the 'Add New School Type' form. At the top is a navigation bar with links: Admin, Reports, 'Schools', Teachers, Portal, Help. Below this is a sub-navigation bar with links: Start, Credits, Mods, Mods & Marks, GPA Types, GPA Scales & Marks, Trans Codes, Mods to Classes, Class Rank, RC Types, RC Lockouts, Rubrics, Keys. The main form area is titled 'Add New School Type'. It contains a 'Name:' text input field. Below it is a section for 'Applicable Gradelevels:' with a grid of checkboxes: UU, AD, US, UE, IN, TD, TK, PS, 08, 01, 02, 03, 04, 05, 06, 07, 09, 10, 11, 12. There are also buttons for 'Select All', 'Select K-6', 'Select 7-8', 'Select 9-12', and 'Deselect All'. Below the grade levels are two dropdown menus: 'Report Card Template:' (with 'sis_reprckN' selected) and 'Withdrawal Report Card Template:' (with 'None' selected). At the bottom of the form is a 'Calculate Credits' checkbox. At the very bottom are 'Cancel' and 'Save' buttons.

This will automatically create a "General Education" graduation type under your new school type.

If you need to create a new graduation type, click the "Add new graduation type" link.

Type in the name of the new graduation type (ex: College Prep Education) Do not forget to set the rollover category.

- Step 3. Click "Add a new course category" for this grad type. Enter a category name and Click **SAVE**
- Step 4. Continue to add course categories as needed by clicking on "Add a new course category" and saving until you have all categories entered. If you make a mistake, click on a category, such as English, and edit or delete the course category
- Step 5. Most schools make electives their rollover category so any extra credits taken in any other course category will be "rolled over" to electives. Do this by clicking on the Electives category and then selecting the "Make this the rollover category for all graduation types" button. The rollover category will be highlighted in green.

- Step 6. Enter the credits required for each course type and click SET

NOTE: You can edit or delete the course categories and add new graduation types if needed. Click on the name of the course category if you need to edit or delete it. All deletes in SP SIS requires typing CONFIRM in all caps and clicking on the DELETE button

To edit the credits needed in a category, just change the number of credits in the boxes and click SET

Set Printed Transcript Options

Determine what optional information will be included in students' printed transcripts MODS Tab

- Step 1. Choose Define Transcript Modifiers
 - Step 2. Choose what modifiers you want to be used on your transcripts. The basic list is given and this may be all you need. If you would like to add modifiers to the list, click on CHANGE MODIFIER LIST. Then click on ADD or Edit to make changes
- Example: students might have courses that will not be taken for credit. Click Add and enter "nc" and "course not taken for credit" in the fields. Change the Modifier set to read "***Create New Set Called" and then enter your own name in the blank field. SAVE. You can also to choose the 'Skip GPA' calculation and "Skip Credits" calculation for any courses set with this modifier. SAVE

- Step 3. SAVE or Click Cancel/Done to return to the main page.
- Now choose where you want to allow this modifier. The USE column indicates what is on or off in the SIS. Choosing RW/PLS allows teachers to use it as a modifier in ReportWriter and/or PLS

OtherCA	v	Vocational Education			<input checked="" type="checkbox"/>	<input type="checkbox"/>
Pass/Fail	pf	Pass/Fail Course			<input checked="" type="checkbox"/>	<input type="checkbox"/>
Repeat	r	Repeated Later	X	X	<input checked="" type="checkbox"/>	<input type="checkbox"/>

Which modifiers do you wish to use?

"Transcript Modifiers" change the way that courses are used to calculate GPAs for display on transcripts. For example, many schools have an "Academic GPA" which specifically excludes classes marked with a "Non-Academic Class" modifier.

Modifiers are broken up into groups called their "Set". Only one modifier in a set can be selected. For example, it's impossible to have a class that is both "Advanced Placement" and "Non-Academic" at the same time. To reflect this, they are in the same set by default, "ClassType". To make this easy to see, each Set is given a different background color in the table above.

If you don't wish to use ALL the codes shown here (including the defaults) then select the ones you'd like to use, and click the "Use Selected" button. If you do wish to use ALL of the codes shown here, just check the "Use All" button.

Among any modifiers that you choose to use, you may also choose "RW" which allows US teachers in ReportWriter to set these modifiers in ReportCards.

Marking a modifier as "not used" will not cause any uses of that modifier in existing transcripts to be deleted. If you'd like to see which students are using a specific modifier, click the "Show Student List" button at the bottom right.

- Step 4. Click Use Selected.

Mods and Marks Tab

- Step 1. Access this page by clicking on the Mods & Marks tab at the top of the page.

Description

Save Allowed Marks

Above a list of all the class marks that are acceptable for transcripts, and a list of the modifier sets. You may want to set things so that certain marks cannot be used with certain modifier sets. \\For example, you might decide that pass/fail classes can only be given a mark of “p” (pass) may not be used unless the Pass Fail modifier (pf) has been selected.

- Step 2. Check the marks that are OK with each class modifier set, then press “Save Allowed Marks” to set.

GPA Types Tab

- Step 1. Access this page by clicking on the GPA types tab at the top of the page. Here you see the types of GPAs that are being calculated on your transcripts. You can change these definitions, and/or create new GPA type definitions for your transcripts.

Cal Grant 10/11 GPA	<input checked="" type="radio"/>	<input type="radio"/>	Unweighted	More Details
Total GPA	<input type="radio"/>	<input type="radio"/>	Unweighted	More Details
Weighted GPA	<input type="radio"/>	<input checked="" type="radio"/>	Unweighted	More Details

Here you see the types of GPAs that are being calculated on your transcripts. You can change these definitions, and/or create new GPA type definitions for your transcripts.

Class Rank - is this GPA Type used to calculate class rank? If you change this, it will affect all class ranks for all currently enrolled students.

Report Cards - is this GPA Type used to calculate report cards? The transcript can show any number of GPA types. While this is usually the same as class rank, it may not always be.

Default Scale - Scale may be changed based on the modifier(s) used on a student's transcript. But if no modifiers are used, what grading scale do you want to be applied?

- Step 2. Set the GPA types for your school (if you need to add more click on Add New Type)
- Step 3. Choose if you want a class rank to be calculated using this GPA. You must choose one and then click Save Class Rank/Default Scales. If you want another GPA type calculated for Class Rank, choose a new one and then click Save Class Rank/Default Scales again.
- Step 4. Choose if you want the GPA to be calculated on an un-weighted or weighted scale. Unless you want all grade types to have a boost (5.0 Scales instead of 4.0) leave this unweighted
- Step 5. Click on "More Details" and choose what grade levels this particular GPA type. The "Default" sets the grading scale to whatever you did in step 3 (usually unweighted.) Notice that the Pass/Fail grade type is not added into the GPA calculation and the honors and AP are given an extra point.
- Step 6. Click SAVE when you have completed this page.

Define Transcript GPA Scales

Basically, the define transcripts GPA Scales are the marks you want to allow for classes, and how much value should they have

- Step 1. Choose Define Transcripts GPA Scales
- Step 2. Enter in values you'd like to have for the GPA scales used for computing GPAs in transcripts for the various marks. If you don't wish to use a particular mark in your transcripts, leave the entry box blank
