

wednesday webinar, admin essential, staff records

Credential Authorization Data & Local Assignment Options

Step 1: Access Staff Credentials Tab

Step 2: Click on Add Credential Record

Step 3: Enter credential data from CTC document or access CTC for credential data

CTC Link provided [Here](#)

Step 4: Adding Authorization

- Enter the **Authorization Code**, **Authorization Description** will auto populate.
- Then enter **Subject Code** and **Subject Description** will auto populate.
- Enter **Major/Minor** then Click Save or add any additional authorization codes covered then **SAVE**

Notice that one document can have multiple authorizations. See below screenshot

When you have added all authorizations, click the SAVE button and the relevant details will show on the Entry Page:

Step 5: Local Assignment Options/Authorized Areas

Click on the **Edit Local Assignment/Authorized Areas** button. *Default view will show Deprecated Codes* The page is broken up by **Self-Contained**, **Academic Subjects**, and **CTE**.

Dropdown Options:

- Default View 2019-20 Subject Codes, this will show ALL new codes
- Subject Codes that apply to this Teacher, will show only codes that are currently in use, i.e. class created under that code.
- OLD Subject Codes that apply to this Teacher, will show the OLD state codes and OLD NCLB authorization such as HOUSS, VSSP Option.

Page Tools

Local Assignment Option Descriptions can be shown for reference by clicking the **Local Assignment Option/Authorized Area** button. To expand the codes, click the **Expand All** Button.

Step 6: Selecting Authorizations

Choose the **Subject Codes that apply to this Teacher** option from the dropdown. Codes that are currently in use will be shown in **Orange** for easy identification. Select the appropriate authorization for the subject area from the drop down. **Authorized Area or choose a LAO**. Users can also MASS Select, check the **Check All in Category** box on the left under the subject category and select option from the Local Assignments dropdown on the right. The Authorization selected will auto populate in all courses in category. Then **SAVE**.
