

admin, student data

Loader

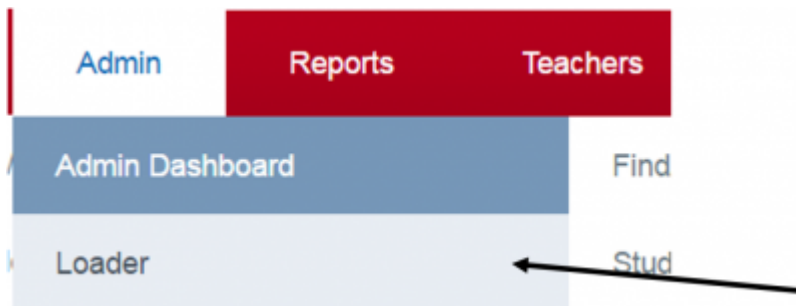

Disclaimer: School Pathways is not responsible for any misuse of this loader feature. If you overwrite student data, you will need to contact us immediately for programmer assistance - the charge to correct errors completed by your staff is \$150 per hour, and a statement of work will need to be signed prior to our programmers recovering your data.

Important Notes:

- **One** worksheet per loader table
- Files must be saved as a **.csv** before uploading

- Go to **Admin > Loader:**

- Choose Where are you loading from (typically External SIS) and the tableset you wish to load:

Loader

[Modify Sources](#)

Where are you loading from?

External SIS

Which tableset are you loading?

students

classcategories
ClassRegistrations
ClassSchedule
ClassSchooltracks
courses
courses2gradelevels
courses2catalogs
courses2tr_mods
CumeFileData
customnotes
discipline
emergency
emergencysiblings
enrollments
immunization
incidents
logins
parents
specialenrollments
students

- Click on **1.Upload:**

External SIS -> students has not been accessed in the loader yet. Make sure to upload a file before attempting to use any of the other options.

[1. Upload](#) [2. Identify Columns](#) [3. Map Values](#) [4. Load](#) [Download](#)

- Click on "Choose File" to upload your .csv spreadsheet, Then click on "Upload Data Files".

Click on Help -> Data Import Schema for the definition for this loader.

1. Format MUST BE CSV
2. The first row must contain the names of the columns - it must not contain actual data.
3. Files uploaded replace already uploaded files of the same type.
4. Leave blank any files you do not wish to (re)load.

Import Tab (click to download)	Upload	File Size	Uploaded Time	Delete
Students:	Choose File No file chosen	--	--	X

[Upload Data Files](#)

- Match your column names to School Pathways field names (this can also be accessed by click on the 2. Identify Columns tab)

Local ID?	CSV Column Name	School Pathways Field Name	Field Search
<input type="checkbox"/>	legacy_id	Student Legacy ID (students.number)	legacy
<input type="checkbox"/>	local_id	Local Student ID (students.id)	
<input type="checkbox"/>	lastname	Last Name (students.lastname)	
<input type="checkbox"/>	firstname	First Name (students.firstname)	
<input type="checkbox"/>	middlename	Middle Name (students.middlename)	
<input type="checkbox"/>	suffix	Suffix (students.suffix)	
<input type="checkbox"/>	aka_lastname	-- IGNORE --	
<input type="checkbox"/>	aka_firstname	-- IGNORE --	
<input type="checkbox"/>	aka_middlename	504 Accommodations (students_504_info.accommodations)	
<input type="checkbox"/>	aka_suffix	504 Case Manager (students_504_info.casemanagestaff_id)	
<input type="checkbox"/>	ssid	504 Coordinator (students_504_info.staff_id)	
<input type="checkbox"/>	mailingstreet	504 Determining Criteria (students_504_info.section504_criteria_id)	
<input type="checkbox"/>	mailingcity	504 Disability (students_504_info.impairment)	
<input type="checkbox"/>	mailingstate	504 Last Modified By (students_504_info.lastupdatedby_ts)	
<input type="checkbox"/>	mailingzip	504 Last Modified Timestamp (students_504_info.lastupdatedby_ts)	
<input type="checkbox"/>		504 Local ID (students_504_info.id)	
<input type="checkbox"/>		504 Major Life Activity Affected (students_504_info.activity_affected)	
<input type="checkbox"/>		504 Notes (students_504_info.note)	
<input type="checkbox"/>		504 Nurse Staff (students_504_info.nursestaff_id)	
<input type="checkbox"/>		504 Plan Date (students_504_info.plan_day)	
<input type="checkbox"/>		504 Plan End Date (students_504_info.plan_end_day)	
<input type="checkbox"/>		504 Plan Type (students_504_info.section504_plantypes_id)	
<input type="checkbox"/>		504 Release Date (students_504_info.next_review_day)	
<input type="checkbox"/>		subsidizedtransportation (students.subsidizedtransportation)	

- When finished matching, click on **“Save Column Identifications”**

☐ 504_note

Save Column Identifications

Any field in Red needs something corrected - click on the field name to access the errors:

Color Key

Direct ID map

Column not checked

All values pass

Some values fail

Students		
Column name in CSV	Local ID?	Identified field in database
Legacy ID		students.number
Local ID #	No	students.id
Last Name		students.lastname
First Name		students.firstname
Middle Name		students.middlename
SSID #		students.st_number
Mailing Address Street		students.mailingstreet
Mailing Address City		students.mailingcity
Mailing Address State		students.mailingstate
Mailing Address Zip		students.mailingzip
Street		students.street1
City		students.city
State		students.state
Zip		students.zip
County		students.county
District of Residence		students.distofresidence

If the map to value is a dropdown, you can click on “Guess List” to help identify field names quicker:

Mapping: students."Primary Race" ▶ students.ethcode

Show All Values

Guess List

Mark all unmapped fields "SKIPIT"

#	Value	Map To	Field Type	Null OK?	Default	Instances Found
1	Galt unified school district	NOT MAPPED	integer	YES		1 record(s)
2	Center Unified School District	NOT MAPPED	integer	YES		1 record(s)
3	Alameda County	NOT MAPPED	integer	YES		1 record(s)
4	sutter cava	Sutter County Office of Education (Sutter County)	integer	YES		1 record(s)
5	Catholic Diocese of Sacramento	NOT MAPPED	integer	YES		1 record(s)
6	Crescent View Charter school	NOT MAPPED	integer	YES		1 record(s)
7	Eureka School District	NOT MAPPED	integer	YES		1 record(s)
8	Redding School District	Redding Elementary (Shasta County)	integer	YES		1 record(s)
9	San Juan Unified School District	San Juan Unified (Sacramento County)	integer	YES		1 record(s)
10	Sylvan	Sylvan Union Elementary (Stanislaus County)	integer	YES		1 record(s)

You can also type into the search box to the right of each map to name to find names:

#	Value	Map To	Field Type	Null OK?	Default	Instances Found
1	Galt unified school district	Galt Joint Union High (Sacramento County)	integer	YES		1 record(s)
2	Center Unified School District	NOT MAPPED	integer	YES		1 record(s)

When finished matching, click on "Save Value Mapping":

School Pathways Data Loader

Mapping: students."parent_edu_level" ▶ students.fatedlevel

14	142154	142154	Time	Brandon	Charles						4065281100	1080 Ju

When ready to load, choose one of the following:

1. Load Table in Insert Mode (this is for brand new records only)

2. Load Table in Update Mode (this is for updating records that are already in the system)
3. Load Table in Mixed Mode (this is if you are loading a mix of updates and new data)

Adult Home Language		students.parentslang
---------------------	--	----------------------

Load in record creation mode
Load in record update mode
Load in mixed mode

Once the loader has completed, you can check your data in the SIS.

Overview of Loader Buttons:

Source	1. Upload	2. Identify Columns	3. Map Values	4. Load	Download	Loader Tools	Finalize Import	Logins
--------	-----------	---------------------	---------------	---------	----------	--------------	-----------------	--------

- **Download:** Click this to download your most recent load.
- **Finalize Import:** If you are loading the same exact data into another scope, you can use the Finalize Import area to pull your files and upload into the new scope.
- **Loader Tools: IMPORTANT** - when you click on any of the tools, they will automatically run. DO NOT use these unless you are absolutely certain you want to run them!
