Page Features

Student Record

The most important section of the Student Roster is the Student Record.

Student Records are populated on the page by using the **Search Box** detailed in the next section.

#	Mig?	LocalID	AL	Student Activity						Attendance	Name	Special Needs	Parent/Guardian	Grd Track	City	Zip	Phone	Cell	Birthdate	Email
1		78715									Brooks, Lily			10 A	Santa Rosa	97875	(556) 962-5154	(326) 565-5656	10/20/2000	lilybrookes@mailinator.com

Each column on the Student Record holds useful information about the student:

- **#**: Student's position in the current list.
- **Mig?**: Is the student Migrated? If the student is Migrated to a record in ReportWriter, this column will show a "Y". If the student is not Migrated to a ReportWriter file and the school uses the PLS, a blue arrow will appear in this column. Clicking the blue arrow will **Expand** the student record. See **Expanded Student Record** below.
- **LocalID**: The student's system-generated ID Number. A student's LocalID is unique within the

current scope and can be used to locate the student in various reports.

- **AL [Optional Feature]:** Activity Log. Click to view the student's Portal activity for the current week.
- **Student Activity [Optional Feature]:** Weekly student activity at-a-glance. Days highlighted in green indicate student logged activity in the Portal. Days in red indicate no activity was logged by the student in the Portal for that day.
- **Attendance [Optional Feature]:** Scan Attendance at-a-glance. Green arrow indicates student is currently present in a class or on campus. Red means student is not currently present in a class or on campus.
- **Name:** Student's name. Click on the student's name to access the student's [Dashboard](#).

Expanded Student Record

By clicking on the Blue Arrow in the **Mig?** column, detailed student information can be viewed and managed, and reports and classes for that student can be accessed.

#	Mig?	LocalID	AL	Student Activity						Attendance	Name	Special Needs	Parent/Guardian	Grd Track	City	Zip	Phone	Cell	Birthdate	Email

The Search Box filters the Student Roster based on the selected parameters

- **Schoolyear:** Academic Schoolyear as defined by your [School Calendar](#).
- **Schooltrack:** View only students enrolled in selected Track. Tracks are defined in the [School Calendar](#).
- **Date Range:** Select a predefined Date Range from selected Schoolyear and Schooltrack, or set to “-Filter By Date Range-” to manually enter your own in the **From** and **To** date fields.
- **Supervised By [Admin Only]:** Show students belonging to staff supervised by selected staff member.
- **Program [Not Pictured]:** Show only students enrolled in selected Program. Programs are defined in [Program Options](#).
- **Learning Center¹⁾ [Not Pictured]:** Show only students/classes in the selected Learning Center.
- **Assigned As:** Show only students who are associated to the selected instructor in the selected capacity.
- **Students For:** Show only students who are associated to the selected staff member.
- **Course:** Show only students enrolled in the selected Course.

In addition to filtering the student roster, a few more options are available in the **PLS Options** section:

- **Expand/Collapse Students:** Toggle all displayed **Student Records** open or closed.
- **Set Copy MA Mode:** Enable MA Copy Settings Box. See our Tutorial on [Copying PLS Classes to Next Period](#).

Below the PLS Options are some expandable Print Options. Click on the Magnifying Glass to expand the following options:

- **Accommodations:** Include Student Accommodations on printed roster.
- **Parent Info:** Include Parent names, addresses, phone numbers, and relation to student on printed form.
- **Layout:** Toggles whether to print the roster in Portrait (tall) or Landscape (wide) orientation.
- **File Type:** Toggles whether to print the roster in PDF (document) or CSV (spreadsheet) format.

¹⁾

Schools may optionally change the name of their “Learning Centers”. If a custom Learning Center name is chosen, this label will be replaced with the custom name
