## Student Dashboard Customization

The screenshot shows the Student Dashboard for a student named ELLISA KILLIAN, Grade 2, Age 8. The dashboard includes a navigation bar with tabs like Admin, Reports, Schools, Teachers, Portal, and Help. Below the navigation bar, there's a search bar and a list of menu items. The main content area is divided into sections: Student Information (SSID, Local ID, Gender, Birthdate, Home Phone, E-Mail, Physical Address, Mailing Address, Parents/Guardians, Siblings), Credit Computation Progress (2015 - 2016), and a table of course progress. The 'Options' button in the bottom right corner is circled in red.

1. Click on the page element titled Options
2. Choose the page policy tab. (This will show a list of policies directly related to that area in the SIS)
3. A list of customizing options will appear. Choose the settings for your dashboards and SAVE.
